# ELEGANT & TIMELESS

I specialise in unique and elegant wedding photography, lifestyle & engagements.

I aim to capture it in the most honest way I can and whether you hire me for 1 hour or 10 hours I will never be far, ready to capture what's there and what's happening.

## Complimenting your wedding day

Being relaxed and friendly on your wedding day is essential, which is why I am always approachable and happy to be asked for any special requests such as couple, family and small group shots, from you and your guests throughout the day.

## PRE WEDDING SHOOTS

Pre wedding shoots are so much fun that I have included them in all my main packages.

It is a chance to go out and take some beautiful photos of you both, capturing your true personalities.

Sessions are relaxed and laid back. The shoot is an opportunity to put you at ease in front of the camera before your wedding day.

I can recommend some great locations or you may already have somewhere special in mind.

All the images are yours to keep.

# WORLDWIDE LOCATIONS

No matter where in the world you wish to have your special day, I will be willing to travel far and wide to capture your wedding day.

I always ensure plenty of time to arrive at your wedding, arriving from 1-2 hours before or if abroad I may arrive a day or two ahead of you, to ensure I have time to view your wedding location and familiarise myself with the surroundings.

Every couple I meet and every wedding I attend is different, unique, beautiful...exactly like yours will be!

# FAQ

## FREQUENTLY ASKED QUESTIONS

### How do you work on the day?

On a typical full day wedding I will start with the bride & groom prep and continue through the day in a professional and discreet manner, always being friendly, polite & helpful to ensure your day runs smoothly.

### How long will you be at the wedding?

For the premium wedding package I will be with you from around 10am in the morning to 10pm in the evening.

When you sit down for the wedding breakfast is when I take a break get something to eat and back up the photos from the prep & ceremony.

### Do you work with a second photographer?

Sometime I do yes, it all depends on the number of guests the venue size & whether you have booked a package that includes a second photographer. Sometime I may feel that a second photographer or assistant will be a valuable asset to creating more creative photos & that the venue has certain vantage points that can be used by more than one photographer.

### Where do you cover?

I am based in Lancashire but very often cover other counties such as Cumbria, Cheshire, Yorkshire and Staffordshire, but I am most certainly not restricted and will travel where ever required.

### Do you edit all the photographs taken

Yes, I do, I have a three step process when it comes to processing your photos, I first of all go through them and delete any miss fires, out of focus shots and duplicates that are no better than the first.

I will then import them into Adobe lightroom for processing. The final stage will be when I make a selection of around 30-60 images that I rate as the very best and may finer edit these images.

### Is there a Deposit to be paid?

Yes, to secure your date I there is a 50% to be paid as a booking fee. The remaining balance is due two weeks before the date of your wedding.

### How long does it take to receive our photographs?

During the most part of the year images will be posted up to your online gallery within 6-8 weeks, however during July - October then can take between 8 & 10 weeks due to the amount of wedding I cover. If there is a delay you will always be notified and I always do my best to get you at least 20-50 images within just a couple of weeks of your wedding day.
